

HIPOSSPEED V™

MINI SIZED 90° SHOULDER AND HIGH-FEED MILLS WITH STRONG V-SHAPED INSERT

- .250 – .500" diameter cutter range
- V-Bottom pocket fosters easy insert indexing, increased core diameter and minimizes insert screw stress
- 90° and Hi-Feed inserts fit the same pockets
- Integrated wiper flats produce 32-63 Ra surface finishes
- All cutters are plumbed with coolant through the tool
- High cutter densities with small IC insert sizes
- Economical solid carbide alternative!
