Ingersoll Seminars

Application seminars have always been an important part of Ingersoll Cutting Tools customer service & our Swiss Seminar is no different. We believe that properly applying cutting tools is just as important as building quality cutting tool products. Our Seminars place special focus on proper tool selection and the application of the latest cutting tool technologies. This seminar is designed to maximize your effectiveness in Swiss applications and the unique machining challenges you face each day.

What To Expect

Through group discussions, presentations and machine demos, seminar attendees are exposed to a wide range of metal cutting technologies.

- Holder & Insert Selection
- Grades and Coatings
- Carbide Failure Modes
- Chip Control
- Threading
- Parting, Grooving & Turn/Groove
- Milling
- Multi-Functional Tools
- Turning, Drilling, Boring & Milling
- New Products
- Features & Benefits
- Applications
- Heavily Focused on Productivity
